

## Home School Program Information

Home School is available for working pet parents who are interested in training sessions in their home. Our home schooling program is a unique way for your pet to receive training, socialization and rehabilitation in their own environment, while you are away at work. Our trainer will visit your home midday and work on any behavioral issues you might be having while conditioning basic obedience and manners. Training sessions will last a minimum of 1 hour and private lessons are included in the follow up to ensure the training sticks. You need not be present for our midday lessons – we will debrief you on the training that takes place at the end of each week. Why hire a pet sitter or dog walker when you can have your pooch trained while you are at work?

### Important Information about Home Schooling

- Home School Training is offered Monday through Saturday.
- Training is not available Sundays or major holidays
- All recommended training tools will be provided by the trainer and will be yours to keep upon graduation from the program.
- All dogs must be current on their rabies vaccinations (proof required) and in good health
- In home consultation required to participate. Travel fee waived if a package is booked.
- Sessions take place between the hours of 11am and 3pm unless otherwise requested.
